ST906 Mini

Description

ST906 is a timeless lamp that, because of its size, allows for a versatile use. It can be placed on a dresser, in the bookcase, or in the window sill, without taking up too much space. The possibilities are many. ST906 is made in two materials, coated

paper and birch veneer. The materials have different expressions and degree of illumination. Coated paper provides good and general lighting, in a pleasant white tone. Whereas the birch veneer gives a warm and cozy light.
